

# RESEARCH PROPOSAL TEMPLATE

When preparing an application for entry into a research higher degree program it is necessary to supply a clear statement describing the proposed area of research (a research proposal). Consultation with a faculty or school academic staff member in the research area of interest is recommended prior to submission of an application. Liaising with an academic allows you to frame the proposal to align with established disciplines and areas of supervisor capacity.

You must write your own research proposal and reference accordingly. The exception is when your potential supervisor finalises the research proposal with you, for a specific research project that has already been defined. Please visit the University's Academic Integrity pages and policy

Thesis and Dissertation Writing in a Second Language Brian Paltridge, Sue Starfield, 2007-06-11 The relationship of supervisor to student has traditionally been seen as one of apprenticeship in which much learning is tacit with the expectation that the student will become much like the tutor. This handbook is the ideal guide for all supervisors working with undergraduate and postgraduate non native speaker students writing a thesis or dissertation in English as it explicitly unpacks thesis writing using language that is accessible to research supervisors from any discipline.
