White Bonus Tracie McMillan,2024-04-23 A genre breaking work of journalism and memoir that tallies the cash benefit and cost of racism in America This unflinching book from award winning investigative reporter Tracie McMillan examines what white privilege delivers in dollars and cents not only to white people of wealth but also to white people from the poor to the middle class McMillan begins with her own downwardly mobile middle class family and takes us through a personal history marked with abuse illness and poverty while training her journalistic eye on the benefits she saw from being white McMillan then alternates her story with profiles of four other white subjects millennials to baby boomers from across the United States For readers of Stephanie Land s Maid Heather McGhee s The Sum of Us and Clint Smith s How the Word Is Passed McMillan brings groundbreaking insight into how and to what degree white racial privilege builds material advantage across class time and place Rather than analyzing racism as a thing that gives less to people of color McMillan studies how it gives more to people who are white including with uncommon honesty herself and how it takes so much from so many The unforgettable follow up question thrums steadily through this book Do white Americans believe that racism is worth what it costs all of us

Core Concepts in Criminal Law and Criminal Justice Kai Ambos,Antony Duff,Julian Roberts,Thomas Weigend,Alexander Heinze,2020-01-16 A comparative and collaborative study of the foundational principles and concepts that underpin different domestic systems of criminal law **Research Handbook on Plea Bargaining and Criminal Justice** Máximo

Langer,Mike McConville,Luke Marsh,2024-04-12 Bringing together established and emerging scholars from around the world the Research Handbook on Plea Bargaining and Criminal Justice examines the practice of plea bargaining through which guilty pleas are secured and trials are avoided On the Alternative Punishment to the Death Penalty in China Gui Huang,2024-04-17 This book presents a study of alternative penalties to the death penalty in China aiming to promote theoretical exploration of death penalty reform in China as well as long term penal reform Currently China is endeavouring to control the use of the death penalty and is gradually moving towards its abolition The factors influencing the choice of the punishment option to replace the death penalty are complex and varied and include the traditional punishment culture penalty concepts the political system the punishment system public opinion and human rights etc Given the differences

between China and developed Western democratic states when we examine these influencing factors we cannot ignore the culture of the punishment and the special political and legislation system in China In this light this work examined and analysed the factors that influence the choice of punishment option to replace the death penalty in this special political system with its clearly Chinese characteristics Criminal policy and public opinion are two significant and typical factors involving obvious political considerations in China The former normally reflects and carries out the will of the Government as expressed to the national management the latter responds to the majority of citizens view on the current legal system and it is to a great extent the basis for national leadership s running of the country Even though life imprisonment without release hereinafter LWOR has been stipulated by the Ninth Amendment for the crime of corruption it should not be the preferable option as the alternative sanction to the death penalty because it is a kind of cruel torture and violates the constitutional principle of human rights protection On the contrary life imprisonment with possibility of release hereinafter LWPR would be an option but the termination mechanisms for inmates should be set out in accordance with the principle of proportional justice aggravated life imprisonment can be chosen to replace the death penalty in China In addition there needs to be improvements made to the relevant criminal systems By examining China s death penalty reform and long term imprisonment reform this book not only explains the methodology of the reform theoretically but also pays attention to the issues of legislation and judicial practice This book is of interest to scholars and researchers in the fields of criminal justice penal reform issues and crime control in China
