

A photograph of a dirt path leading through a forest. The path is light brown and leads towards a bright light source at the end of the path, creating a strong lens flare. The trees on either side have autumn-colored foliage in shades of orange, yellow, and red, with some dark evergreen trees visible in the background. The overall mood is serene and hopeful.

We've all got both light and dark inside us. What matters is the part we choose to act on. That's who we really are.

is by the agency of this mysterious substance that we become acquainted with the beauties and sublimities of the universe and the wonderful operations of the Almighty Creator Without its universal influence an impenetrable veil would be thrown over the distant scenes of creation the sun the moon the planets and the starry orbs would be shrouded in the deepest darkness and the variegated surface of the globe on which we dwell would be almost unnoticed and unknown Creation would disappear a mysterious gloom would surround the mind of every intelligence all around would appear a dismal waste and an undistinguished chaos To whatever quarter we might turn no form nor comeliness would be seen and scarcely a trace of the perfections and agency of an All Wise and Almighty Being could be perceived throughout the universal gloom In short without the influence of light no world could be inhabited no animated being could subsist in the manner it now does no knowledge could be acquired of the works of God and happiness even in the lowest degree could scarcely be enjoyed by any organized intelligence We have never yet known what it is to live in a world deprived of this delightful visitant for in the darkest night we enjoy a share of its beneficial agency and even in the deepest dungeon its influence is not altogether unfelt

1 The blind indeed do not directly enjoy the advantages of light but its influence is reflected upon them and their knowledge is promoted through the medium of those who enjoy the use of their visual organs Were all the inhabitants of the world deprived of their eye sight neither knowledge nor happiness such as we now possess could possibly be enjoyed     Seed to Harvest Shawna DeForest Morby,2022-05-13 Do you ever wonder why the Bible uses so many references to seeds plants and harvest Or why the first home for humanity was a garden Does the abundance of foliage all around us perhaps have some wisdom from our maker entwined within its roots When we compare our lives to the life cycle of plants we can see similarities that allow us to relate and in that relationship there is wisdom and answers Our world is surrounded by plant life in various stages of their life cycle from seed form to harvest There s no mistake that God first created a garden and had us work the ground God s garden is the world around us When we sit in the garden not only are we blessed by God s colorful artistry but we find wisdom for how to live our lives in abundance producing fruit for God s harvest As you read this book you will discover God s love his plan and his purpose for you as you compare yourself to the seed sprout leaves flowers fruit and harvest You will also learn from God s divine design as we study the storms and pests that may hinder growth and stall or completely stop a potential harvest How can we be prepared to weather the storms in our life Is there something to be learned from the plants that have survived through drought storms and pests You do not have to be a farmer or gardener to enjoy this book because everything we discuss is all around you If your thumb isn t even the faintest bit of green you can still gain great wisdom from this book God does not call the qualified but qualifies the called and that is you Believe it or not you are valuable You are important in God s massive design and he wants your help with the harvest This book dives deep into the promises of God and how he planted you specifically with a purpose to enact change in this world whether big or small it s all impactful and so are you 2     *Lipid signaling in plants* Xuemin Wang,Kent D.
