

The background is a classical painting of a large, dark stone castle with multiple towers and a prominent spire. The castle is situated on a grassy bank next to a body of water. In the foreground, there are several small boats with people in them, and a larger boat with a red sail is visible on the right. The sky is filled with soft, white clouds, and the overall lighting suggests a bright, sunny day.

Horace Walpole produced The Castle of Otranto in 1765 at the mature age of forty eight It was suggested by a dream from which he said he waked one morning and of which all I could recover was that I had thought myself in an ancient castle a very natural dream for a head like mine filled with Gothic story and that on the uppermost banister of a great staircase I saw a gigantic hand in armour In the evening I sat down and began to write without knowing in the least what I intended to say or relate So began the tale which professed to be translated by William Marshal gentleman from the Italian of Onuphro Muralto canon of the Church of St Nicholas at Otranto It was written in two months Walpole s friend Gray reported to him that at Cambridge the book made some of them cry a little and all in general afraid to go to bed o nights The Castle of Otranto was in its own way an early sign of the reaction towards romance in the latter part of the last century This gives it interest But it has had many followers and the hardy modern reader when he read s Gray s note from Cambridge needs to be reminded of its date      *The Castle of Otranto by Horace Walpole Annotated Novel* Horace Walpole,2021-02-26

W. Bateson, 2017-09-04 At first glance A Guide to English Literature may seem to be no more than a short bibliography of English literature with perhaps rather more extensive and certainly more outspoken comments on the principal editions commentaries biographies and critical works than bibliographies usually provide But it is something more this guide contains long inter chapters that provide reinterpretations of the principal periods of English literature in the light of modern research as well as two final sections summarizing in unusual detail the literary criticism that exists in English and recent scholarship in the field The purpose of this book then is to provide the

reader with convenient access to a disciplined study of the texts themselves This guide proposes itself as a new kind of literary history The conventional history of literature has often tended to become a substitute for the reading of the literature it describes the better the history the greater the temptation to substitute it The present combination of reading lists and inter chapters cannot be a substitute for anything else Meaningless as literature in themselves they nevertheless provide the necessary preliminary information to meaningful reading Since oddities of arrangement derive from these assumptions the authors are not arranged alphabetically Instead there are chronological compartments with the divisions circa 1500 1650 and 1800 in which authors succeed each other in the order of their births This pioneering handbook is primarily a bibliographical laborsaving device It is meant mostly for students and the general reader in that it stops where original research by the reader is expected to begin However the last chapter on literary scholarship is devoted specifically to the research specialist and provides indispensable equipment for the reader There is also a general section on literary criticism which will be of use to all
