**The Belly of the Atlantic** Fatou Diome, 2006 A powerful debut novel from a talented young Senegalese author

**Black French Women and the Struggle for Equality, 1848-2016** Félix Germain, Silyane Larcher, 2018-10-01 Black French Women and the Struggle for Equality 1848 2016 explores how black women in France itself the French Caribbean Gor e Dakar Rufisque and Saint Louis experienced and reacted to French colonialism and how gendered readings of colonization decolonization and social movements cast new light on the history of French colonization and of black France In addition to delineating the powerful contributions of black French women in the struggle for equality contributors also look at the experiences of African American women in Paris and in so doing integrate into colonial and postcolonial conversations the strategies black women have engaged in negotiating gender and race relations la fran aise Drawing on research by scholars from different disciplinary backgrounds and countries this collection offers a fresh multidimensional perspective on race class and gender relations in France and its former colonies exploring how black women have negotiated the boundaries of patriarchy and racism from their emancipation from slavery to the second decade of the twenty first century *Emerging African Voices* , **Beyond the Line** Georg Berkemer, Derek L. Elliot, Ute Fendler, Margret Frenz, Michael Mann, Ineke Phaf-Rheinberger, Sebastian R. Prange, Ana Sobral, Frank Schulze-Engler, 2014-04-23 The title of Beyond the Line refers to the imaginary Line drawn between North and South a division established by the Peace Treaty of Cateau Cambr sis in 1559 This is an early modern time and Eurocentric construction according to which the southern oceanic world has long been taken as symbol of expansionist philosophies and practices An obvious motivation for changing this Line division is the growing influence of the Global South in the contemporary economic and political setting However another motivation for changing opinions in regard to the Line is equally important We observe an emergent consciousness of the pivotal role of the oceanic world for human life This requires the reformulation of former views and raises numerous questions A diversity of connections comes to the mind which demands the composition of a catalogue of case studies with an oceanic horizon Through this operation different problems are being linked together Which problems encounter historians with their research on fishes in the archives How to trace records about pirates of non European descent in the Indian Ocean Which role play the Oceans as mediators for labor migrations not only of the Black Atlantic but also of people moving from Asia to Africa and vice versa What do we know about workers on the oceans and their routes When considering oceans as contact zones with which criteria can their influence in different literary texts be analyzed Is it possible to study nationalisms taking into account these transoceanic relationships And how do artists address these questions in their use of the media Against the background of this catalogue of oceanic questions old stories are told anew Sometimes their cultural stereotypes are recycled to criticize political and social situations Or in other cases they are adopted for elaborating alternative options In this sense the contributions concentrate on countries like India Kenya Angola or Brazil and cover different academic fields A

variety of objects and situations are explored which have been and still are determinant for the construction of cultural narratives in view of the modified relationship with the geographically southern oceanic regions Ducks, Geese, and Swans of North America Guy A. the Slave Trade Theorizing Community Rapha l Lambert explores the notion of community in conjunction with literary works concerned with the transatlantic slave trade The recent surge of interest in both slave trade and community studies concurs with the return of free market ideology which once justified and facilitated the exponential growth of the slave trade The motif of unbridled capitalism recurs in all the works discussed herein however community whether racial political utopian or conceptual emerges as a fitting frame of reference to reveal unsuspected facets of the relationships between all involved parties and expose the ramifications of the trade across time and space Ultimately this book calls for a complete reevaluation of what it means to live together      Transnational Narratives from the Caribbean Elvira Pulitano,2016-03-10 This book

offers a timely intervention in current debates on diaspora and diasporic identity by affirming the importance of narrative as a discursive mode to understand the human face of contemporary migrations and dislocations Focusing on the Caribbean double diaspora Pulitano offers a close reading of a range of popular works by four well known writers currently living in the United States Jamaica Kincaid Michelle Cliff Edwidge Danticat and Caryl Phillips Navigating the map of fictional characters testimonial accounts and autobiographical experiences Pulitano draws attention to the lived experience of contemporary diasporic formations The book offers a provocative re thinking of socio scientific analyses of diaspora by discussing the embodied experience of contemporary diasporic communities drawing on disciplines such as Caribbean Postcolonial Diaspora and Indigenous Studies along with theories on border thinking and coloniality modernity Contesting restrictive national and linguistic boundaries when discussing literature originating from the Caribbean Pulitano situates the transnational location of Caribbean born writers within current debates of Transnational American Studies and investigates the role of immigrant writers in discourses of race ethnicity citizenship and belonging Exploring the multifarious intersections between home exile migration and displacement the book makes a significant contribution to memory and trauma studies human rights debates and international law aiming at a wide range of scholars and specialized agents beyond the strictly literary circle This volume affirms the humanity of personal stories and experiences against the invisibility of immigrant subjects in most theoretical accounts of diaspora and migration      **Sub-Saharan African Immigrants' Stories**

**of Resilience and Courage** Mariam Konate,Fredah Mainah,2022-12-06 The purpose of this book is to give a voice to nameless and countless stories that represent the personal lived experiences of sub Saharan African immigrants in the United States The authors believe that telling our own stories from our own perspectives is important and empowering because when others tell our stories there are omissions and misrepresentations and a lot of stereotyping The authors hope that the insights gained from the research in this book will be used by immigrant communities academic institutions and governmental agencies in advocating for immigration policies that positively impact the lived experiences of sub Saharan African immigrants and in planning support interventions      Handbook of Autobiography / Autofiction Martina

*Modernism and the Middle Passage* Laura Winkiel, 2025-10-14 Modernism is typically thought of as focusing on the new and now not looking backward at historical catastrophes Yet in many surprising often submerged ways the transatlantic slave trade shaped the works of both Black and white writers This book reveals how

modernists turned to the Middle Passage and in so doing upended Western ideas about time and space race and gender and the category of the human Bringing together Afro diasporic and Black studies scholarship modernist aesthetics and environmental studies Laura Winkiel presents a new literary history of modernism from the perspective of the Atlantic and its role in slavery and colonization She examines the works of African Caribbean British and US writers including Joseph Conrad William Faulkner Langston Hughes Zora Neale Hurston Claude McKay Jean Rhys Amos Tutuola and Virginia Woolf as well as later interlocutors such as Marlon James and Jamaica Kincaid Paying particular attention to settings on shorelines deltas archipelagos and the ocean Winkiel argues that allusions to the slave trade make visible the exploitative structural relations between the metropolis and the colonies and between the liberal subject and its others By turning to the ocean and its violent histories this groundbreaking book rethinks the fraught relationship of modernism and race [IEEE Conference on](#)

**The Eastern Fleet and the Indian Ocean, 1942-1944** Charles Stephenson,2022-04-06 A study of the British Royal Navy's activities in the Indian Ocean during World War II led by Admiral Sir James Somerville The story of the British Eastern Fleet which operated in the Indian Ocean against Japan has rarely been told Although it was the largest fleet deployed by the Royal Navy prior to 1945 and played a vital part in the theatre it was sent to protect it has no place in the popular consciousness of the naval history of the Second World War So Charles Stephenson's deeply researched and absorbing narrative gives this forgotten fleet the recognition it deserves British pre war naval planning for the Far East is part of the story as is the disastrous loss of the battleship Prince of Wales and battlecruiser Repulse in 1941 but the body of the book focuses on the new fleet commanded by Admiral Sir James Somerville and its operations against the Japanese navy and aircraft as well as Japanese and German submarines Later in the war once the fleet had been reinforced with an American aircraft carrier it was strong enough to take more aggressive actions against the Japanese and these are described in vivid detail Charles Stephenson's authoritative study should appeal to readers who have a special interest in the war with Japan in naval history more generally and Royal Navy in particular Praise forThe Eastern Fleet and the Indian Ocean 1942 1944 This meticulously researched outstandingly clear well written and absorbing account is long overdue and will most likely become a standard work The text is most helpfully supported by over 80 pages of detailed end notes referenced to each chapter and a detailed index This is not only a book for naval historians but also for anyone with an interest in the War in the Indian Ocean region Highly recommended Military Historical Society I enjoyed this book it gives us an account of an often neglected part of the war at sea and of the achievements of Admiral Somerville who kept his fleet intact in the face of a potentially overwhelming opponent then was willing to acknowledge that his fleet needed to improve massively before it could take on the Japanese Dr John Rickard author and webmaster of the Military History Encyclopedia on the Web
