Race, Sex, and Social Order in Early New Orleans Jennifer M. Spear,2009-06-15 Winner 2009 Kemper and Leila Williams Prize in Louisiana History The Historic New Orleans Collection and the Louisiana Historical Association A microcosm of exaggerated societal extremes poverty and wealth vice and virtue elitism and equality New Orleans is a tangled web of race cultural mores and sexual identities Jennifer M Spear s examination of the dialectical relationship between politics and social practice unravels the city s construction of race during the eighteenth and early nineteenth centuries Spear brings together

archival evidence from three different languages and the most recent and respected scholarship on racial formation and interracial sex to explain why free people of color became a significant population in the early days of New Orleans and to show how authorities attempted to use concepts of race and social hierarchy to impose order on a decidedly disorderly society She recounts and analyzes the major conflicts that influenced New Orleanian culture legal attempts to impose racial barriers and social order political battles over propriety and freedom and cultural clashes over place and progress At each turn Spear s narrative challenges the prevailing academic assumptions and supports her efforts to move exploration of racial formation away from cultural and political discourses and toward social histories Strikingly argued richly researched and methodologically sound this wide ranging look at how choices about sex triumphed over established class systems and artificial racial boundaries supplies a refreshing contribution to the history of early Louisiana **Stanford Law Review:**

that the shared adjudication model in which the state splits its adjudicative authority with religious groups and other societal sources in the regulation of marriage can potentially balance cultural rights and gender equality In this model the civic and religious sources of legal authority construct transmit and communicate heterogeneous notions of the conjugal family gender relations and religious membership within the interstices of state and society In so doing they fracture the homogenized religious identities grounded in hierarchical gender relations within the conjugal family The shared adjudication model

facilitates diversity as it allows the construction of hybrid religious identities creates fissures in ossified group boundaries and provides institutional spaces for ongoing intersocietal dialogue This pluralized legal sphere governed by ideologically diverse legal actors can thus increase gender equality and individual and collective legal mobilization by women effects institutional change Policing Ethically Clive Harfield, Allyson Macvean, 2025-06-27 At a time when much in UK policing is the subject of intense public and media scrutiny there prevails a practitioner discourse about policing ethically that is ongoing formally in police ethics committee discussions and probably informally in station offices canteens classrooms and police vehicles Since January 2024 these conversations have added emphasis with the publication of the College of Policing's revised Code of Ethics with which policing practitioners in England and Wales are coming to grips This book explores thinking about policing ethically for those who have to use and implement the ideas to those who when law and policy is silent on the matter nevertheless have to make a justifiable decision and act upon it Applicable to policing generally not just to the UK Part 1 of this book presents conceptual contextualization for thinking about policing ethically Following which Part 2 considers practical implications of policing ethically Some of the key topics that the book covers are as follows Discussions of managing power and vulnerability Implementing frontline ethics in practice The process of making ethically informed decisions Considerations around ethics and the use of artificial intelligence by policing practitioners Prerequisites to ethical leadership Considering public interest in relation to policing ethically Risk management as a moral obligation Drawing upon the policing practitioner and policymaking experience of the authors this book will be of interest and use to all those involved in delivering policing constables of all ranks student probationary and experienced policing community support officers professional support staff policing ethics committee members and policymakers The book is also a contribution to the wider academic literature on policing and ethics and will be of interest not only to policing ethicists and ethnographers but also to students and policymakers in the fields of criminology sociology and governance **Private Sins, Public Crimes** Martin Mittelmeier, 2024-11-12 A groundbreaking scholarly study of crime and punishment in Qajar Iran Drawing on a rich array of primary sources in multiple languages Farzin Vejdani argues that the ambiguity in defining the boundaries between private and public in Qajar Iran often corresponded with the jurisdictional friction between government authorities and religious scholars regarding who had the authority to police and punish public crimes This ambiguity had implications for the spaces in which illicit acts were carried out private parties in domestic residences where music alcohol and prostitution were present were often tolerated by local police officials but raised the ire of religious authorities and their followers who raided these residences ironically in violation of strong Islamic norms of privacy Crimes that were manifest but remained unpunished triggered a crisis of legitimacy that often coincided with upstart Islamic religious scholars challenging the state's authority Even when the government had every intention of punishing a crime convicted criminals sought shelter in sanctuaries including shrines mosques royal stables and telegraph offices which were even more inviolable than private

residences This inviolability grounded in both Islamic prohibitions of violence on sacred grounds and Iranian imperial traditions of redress allowed criminals to negotiate a lesser sentence safe passage for voluntary exile or forgiveness
