of African Christianity The thesis presents a historical study of the three challenges highlighted in the synod document and demonstrates how to implement and translate the recommendations of the synod in a concrete pastoral plan in the African setting This research contends that the Church while remaining the salt of the earth and light of the world should engage the various societal structures and institutions and so help Africa to become a reconciled society where the fruits of justice and peace shall be harvested in abundance This research demonstrates the possibility of realizing the aspirations of the Second African Synod by employing the common elements that were used by the Truth and Reconciliation Commission of South Africa which helped foster reconciliation and peace in that country This study concludes by arguing that given the varying and peculiar social contexts of most African countries African Christianity has a major role to play as an instrument of reconciliation justice and peace in transforming the continent of Africa

Emerging Theologies from the Global South Mitri Raheb,Mark A. Lamport,2023-03-29 In recent decades there has been a seismic shift in world Christianity Whereas formerly Christianity existed as a Caucasian Euro American phenomenon the majority of Christians today reside in the Southern Hemisphere or the Global South And what is true for the demographics of Christianity has followed lockstep for its theological developments The era of German theologians setting the tone for global church are gone Today some of the loudest and most creative voices in theology speak from the emerging contingencies of the Global South for example promoting Latinx Black Caribbean and Asian theologies and their influence often influences the conversation in the United States and Europe In addition just as the center of Christianity has moved geographically from north to south so with theological seminaries in the west which have declined as training centers for clergy These events coincide with new theological centers are opening in Asia Africa Oceania and Latin America The bottom line is contemporary Christianity today looks significantly different than it did a century ago and publications have been slow to acknowledge let alone describe and elaborate upon this major shift to the largest religion in the world These shifts guide our intentions in this book Such a reference book which could also be used as a textbook therefore is very much needed In fact there is nothing like the contents of this single volume book in the publishing market which allows for high quality interdisciplinary and international dialogue

Fragile World William T. Cavanaugh,2018-05-22 In *Fragile World Ecology and the Church* scholars and activists from Christian communities as far flung as Honduras the Philippines Colombia and Kenya present a global angle on the global ecological crisis in both its material and spiritual senses and offer Catholic resources for responding to it This volume explores the deep interconnections for better and for worse between the global North and the global South and analyzes the relationship among the physical environment human society culture theology and economics the integral ecology described by Pope Francis in *Laudato Si* Integral ecology demands that we think deeply about humans and the

physical environment but also about the God who both created the world and sustains it in being At its root the ecological crisis is a theological crisis not only in the way that humans regard creation and their place in it but in the way that humans think about God For Pope Francis in *Laudato Si* the root of the crisis is that we humans have tried to put ourselves in God's place According to Pope Francis therefore A fragile world entrusted by God to human care challenges us to devise intelligent ways of directing developing and limiting our power *Christian Healing* , Just Sustainability Christiana Peppard, Andrea Vincini ,2015-03-01 Mission on the Road to Emmaus Cathy Ross ,Stephen B. Bevans ,2015-09-30 The contributors in this collection of essays consider mission through the lens of prophetic dialogue They attempt to bring a fresh approach introducing some newer themes and bringing a different perspective on some older themes by examining in a theological rather than issues based way Aimed at scholars and students of missiology in the UK the US and worldwide it is also a contribution to the study of world Christianity and contextual theology **A New History of African Christian Thought** David Ngong,2016-11-10 David Tonghou Ngong offers a comprehensive view of African Christian thought that includes North Africa in antiquity as well as Sub Saharan Africa from the period of colonial missionary activity to the present Challenging conventional colonial divisions of Africa A New History of African Christian Thought demonstrates that important continuities exist across the continent Chapters written by specialists in African Christian thought reflect the issues both ancient and modern in which Christian Africa has impacted the shape of Christian belief from the beginning of the movement up to the present day **The Oxford Handbook of Religion, Conflict, and Peacebuilding** Atalia Omer,R. Scott Appleby,David Little,2015 The book provides a comprehensive overview of the literature on religion conflict and peacebuilding With a focus on structural and cultural violence the volume also offers a cutting edge interdisciplinary reframing of the scope of scholarship in the field
