has a tight plot and sharply delineated characters Time Crimes is a blend of science fiction crime thriller love story and meditation on the meaning of time In the course of the novel some of the main characters travel back to the past and back to the future not once but three times But as much as it is about time Time Crimes is about the I Ching also known as The Book of Changes This ancient book has served as a source of divination for the Chinese for more than 3 000 years Confucius along with many other scholars and philosophers used the I Ching and added his own interpretations and reflections These contributions compiled and organized over the centuries have made the I Ching what it is today a unique compendium of Chinese wisdom and tradition the common source for both Confucian and Taoist philosophies The ancient Chinese had a profoundly different perception of time than we do This is reflected throughout the I Ching which in itself is very preoccupied with time and its impact on the course of human affairs In Time Crimes these very old ideas are presented in a new context The I Ching provides a system of knowledge to help one analyze and understand the pattern of events and changes in life Through the 64 hexagrams the authors constructed a method to aid in unlocking the secrets of the future and determining the surest way to live in harmony with prevailing circumstances The I Ching emphasizes the cyclical nature of events and the principle of synchronicity whereby coincidence becomes more than mere random accident Moon the central character in Time Crimes is an expert in using the I Ching as a source of guidance and wisdom as he grapples with life s challenges and choices It is he says like a stern but compassionate grandfather who dispenses good advice common sense and caution while suggesting ways to deal with problems that emphasize personal integrity and negate confrontation For lovers of self knowledge of wisdom wrote C G Jung the godfather of contemporary humanistic psychology the I Ching seems to be the right book One of my favourite of the many comments in the I Ching about time comes from the first hexagram The Creative When properly understood it says time is no longer a hindrance but the means of making actual what is potential This is a wonderful idea as it presents time as an ally in the pursuit of enlightenment rather than an obstacle Ellery Littleton Victoria B C Autumn 2004 *A Hand-book of Politics for ...* Edward McPherson,1878 *Proceedings, American Philosophical Society (vol. 106, no. 1, 1962)* , *Publishers' Weekly* ,1893 Francis Parkman's Works Francis Parkman,1899 A Half-century of Conflict Francis Parkman,1897
