

Protect Yourself, Your Family, and Your Community: Know the **EARLY** Symptoms of Ebola.

It is easy to confuse Ebola with Malaria and other diseases.
The early signs of Ebola are similar to the signs of Malaria and can include:

Headache

Fever

Feeling tired and weakness

Red eyes

Joint and Muscle pain

Nausea, stomach pain

If you think you have Ebola or malaria, don't wait!
Call for help immediately if you have ANY of these symptoms.

- Early medical treatment can make it more likely you will live and can save your family from further exposure to Ebola.
- The later signs of Ebola are vomiting and diarrhea. If you wait until these symptoms appear, you are less likely to live, and you risk infecting your family and loved ones.
