no other written by a classic car fanatic with a background in industrial design automotive and wider journalism this story lifts the lid on BL s cars and more The author also adds inside knowledge from time working in the motor industry Lance Cole tells the deeper BL story across the era of its greatest successes and its biggest failures An important and overdue book well researched which will find a welcome place on the shelves of transport academics and motoring aficionados alike The Journal of the Road Transport History Association Cole s engaging and informal writing style makes things very readable and helps us untangle a lot of the more complex shenanigans that went on With fifty colour and fifty monochrome pictures it s well illustrated too Thoroughly recommended for its astute insight whether you re a BL fan or not Car Mechanics **Secret Rovers** James Taylor,Douglas Cooke,2025-04-29 In the late 1960s the old Rover Company put everything it knew into a complex luxury saloon codenamed P8 At the same time it planned to branch out into a new sector of the market with a stunningly advanced mid engined sports car prototype that became a formal project with the codename of P9 However with the forced merger into British Leyland in 1968 Rover found itself squeezed between Triumph and Jaguar neither marque welcomed the new sports car and Jaguar particularly did not welcome the new luxury saloon Little by little Rover s plans were undermined and in 1970 the sports car was killed off followed by the luxury saloon which was axed in 1971 a mere six months before production was due to start Just a year later Rover itself ceased to exist as a separate business after a forced merger with Triumph **The BMW 5 Series and X5** Marc Cranswick,2014-01-10 BMW is a company associated with motoring firsts The very idea of a sports sedan was merely a novelty until BMW introduced the 5 series in 1972 As BMW s middle child the 5 series has drawn features from the company s smallest and largest models establishing a reputation for performance and practicality through multiple generations This book covers the history of the 5 series midsize sedan and the related X5 SUV from September 1972 to the e60 s major makeover for 2008 and the development of the e70 X5 Specific mechanical electronic and cosmetic changes are described including the time of and reasons for their introduction Several aspects of BMW s corporate history and technically related models such as the 6 series are also described as are aftermarket modifications by Alpina Hartge and other specialist BMW tuners and speed shops The book includes more than 200 photographs **Whitaker's Books in Print** ,1998 **Autocar & Motor** ,1990-05 **British Leyland** James Taylor,2018-03-26 In 1968 British Leyland brought together many of Britain s motor manufacturers with the intention of creating a robust unified group that could equal the strength of the big European conglomerates But this was not to be There have been many books about the politics and the business activities of British Leyland but British Leyland The Cars 1968 1986 looks exclusively at the cars that came from the company both the models it inherited and those it created The eighteen years of the corporation s existence saw a confusing multitude of different car types but this book resolves these confusions clarifying who built what and when The book takes 1986 as its cut off point because this was the year that the old British Leyland ceased to exist and what was left of the car and light commercial business was renamed the Rover Group The book

includes Production histories and technical specifications of every major model The special overseas models Appendices on engines code names and factories Buying guidance on the models built in Britain This is the most comprehensive book so far to focus on the cars from British Leyland between 1968 1986 and it provides an overview of each model s production history together with essential specification details It is profusely illustrated with 178 colour and 63 b w photographs **Motor Cycling and Motoring** ,1986 **The Classic Car Adventure** Lance Cole,2017-06-30 Nothing is new under the sun and classic cars books come and go But here instead of a heavy large glossy book of classic car images and details destined to stay on a shelf is something new This book is designed to be read as a companion a book that can go in the car or on a plane and which can be read in full or dipped into anywhere for a classic car fix Old stories and new details are presented and cover all eras of our cars Gathered here is a compilation of the author s published and unpublished adventures and opinions about the design and the driving of some of the greatest cars in motoring history From vintagent to modern classic pristine to oily rag up hill down dale and across continents award winning motoring author designer and serial classic car owner Lance Cole charts the great classic car enthusiasm in a series of engaging essays about cars car design and the men that made the motor industry From tales of Malcolm Sayer to Bedelia and of BMW Jaguar Bugatti and Porsche to tales of old Saabs and rusty Citroens classic car life is here Erik Carlsson Jacques Gerin Giovanni Michelotti and Innes Ireland are just a few of the names that can be found in these pages From design to driving here is a book that is a classic car adventure The Encyclopedia of Classic Cars David Lillywhite,2003 Presents photo illustrated profiles of more than a thousand car models produced by over two hundred manufacturers between the late nineteenth and early twenty first century providing manufacture dates specifications and details on the cars features and makers **Parker's Cars** Aaron Gold,ITV Ventures Limited,2015-08-06 Ello there It will come as no surprise that yours truly is a big fan of cars Over the years I ve got together facts and figures on all the greatest motors and stuck them in this ere scrapbook one car for every year since they made FAB1 the greatest car of all time Course I would say that bein its driver an all but it s not every car that can shoot criminals and swim appily along in the Mediterranean They made FAB1 in 1965 and since then there ave been some real beauties like the Lamborghini Countach Ford Thunderbird Turbo Coupe and Bugatti Veyron Super Sport You gotta love em specially when I tell you all the history and technical stuff what s gone into em **Autocar** ,2004 Road and Track ,1980 **Standard Catalog of Imported Cars, 1946-1990** James M.
