rewarding I have always had an interest in dissecting things analyzing them and then restructuring the information gathered into a new form with the hope of producing a pleasant result In order to do this I had some help My best helpmates in gathering the information I sought were things seen on paper not things seen on a screen I feel good about the fact that I coming from another era did not employ any electronic means to accomplish the task And it was all formed out with the use of an antiquated device known as a typewriter My principal information buddies were the 2 volume U S Postal Service Zip Code and Post Office Directory the 50 state Rand McNally road map inventory and each states official road map The indices to each of these individual road maps followed by a thorough hand and eye scanning of their surface provided the means to lift the names of these entries nearly 22 000 of them The names are a smattering of old names and new names common names usual names and unusual names but basically this is a study involving physical geography with placenames formed from lots of nouns pronouns verbs adverbs and a few conjunctions Its physical Many of the placenames chosen for inclusion in this piece were chosen because they involved things essential to the early settlement and survival of this country
