**Sexuality and Eroticism in a Post-pandemic World**, 2023-09-20 The cultural change denominated as the new normal goes far beyond the adaptation to habits like physical distancing, limited person-to-person contact, teleworking, and self-isolation established with the COVID-19 pandemic. A series of significant transformations in human behavior spreads today in societies all around the world: physical intimacy decreases while virtual reality expands and alterity declines while artificial intelligence emerges, leading to structural reconfigurations of sex relationships, gender awareness, and subjectivity. Sexuality and Eroticism in a Post-pandemic World explores this new cultural atmosphere through twelve interdisciplinary essays questioning global governmentality and challenging the biopolitics of the new normal: the administration of self-control in societies so politically correct that repressed desire for otherness only finds a simulation of its satisfaction with the forced abnormality, outrageousness, and violence of mainstream porn going from ars erotica to alternative pornography, from online dating to gender fluidity, from LGBTQI activism to sex life cultivation, and more.
