

A surreal landscape featuring a modern skyscraper, resembling the Shard in London, standing amidst a dense forest of gnarled, ancient trees. The ground is covered in a thick layer of fallen leaves and debris, including a red fire extinguisher, a satellite dish, and various unidentifiable objects. The sky is a deep, dark blue with wispy clouds. The overall atmosphere is one of a modern structure out of place in a natural setting.

The West in Russia and China Donald W. Treadgold, 1973-05-24 *Faith and Narrative* Keith E. Yandell, 2001 From epic to limerick novel to anecdote literary narratives engage and entertain us From autobiography and biography to accounts of familial generations narratives define communities Myths and histories loom large in religious traditions as well Recently the importance of narrative to ethics and religion has become a pervasive theme in several scholarly disciplines In the essays presented here a distinguished roster of scholars addresses a range of issues associated with this theme focusing especially on questions concerning narrative's contribution to knowledge The American Bibliopolist, 1871

The Self in the West and East Asia Jin Li, 2024-08-26 From the fraught world of geopolitics to business and the academy it's more vital than ever that Westerners and East Asians understand how each other thinks As Jin Li shows in this groundbreaking work the differences run deep Li explores the philosophical origins of the concept of self in both cultures and synthesizes her findings with cutting edge psychological research to reveal a fundamental contrast Westerners tend to think of the self as being as a stable entity fixed in time and place East Asians think of the self as relational and embedded in a process of becoming The differences show in our intellectual traditions our vocabulary and our grammar They are even apparent in our politics the West is more interested in individual rights and East Asians in collective wellbeing Deepening global exchanges may lead to some blurring and even integration of these cultural tendencies but research suggests that the basic self models rooted in long standing philosophies are likely to endure The Self in the West and East Asia is an enriching and enlightening account of a crucial subject at a time when relations between East and West have moved center stage in international affairs

The Western Literary Messenger, 1849 Reorientations of Western Thought from Antiquity to the Renaissance F. Edward Cranz, Nancy Struever, 2024-10-28 The previous Variorum collection of studies by the late F Edward Cranz focused specifically on Nicholas of Cusa The present selection has an equally clear focus

but a far broader scope it brings together materials on his major thesis of a fundamental reorientation of the categories of thought in the Latin West c 1100 AD a thesis that dominated his work from the 1960s onwards The volume differs from the usual Variorum collection in that much of the material is hitherto unpublished distributed only in samizdat form to Cranz s friends and colleagues Nancy Struever has collated and edited the versions of these papers and supplied the necessary annotation for his references It includes too some of the research related to his editions of the Late Antique Aristotelian commentator Alexander Aphrodisiensis and his early research on the reception of Classical and early Christian political thought demonstrating the pertinence of this to the reorientation thesis Cranz s argument centering on Anselm s reading of Augustine and Abelard s of Boethius but dealing with Renaissance and Reformation figures such as Petrarch and Valla Cusanus and Luther Nifo and Zabarella claims a reorientation in speculative genres of the most basic premises of the relations of mind language and reality Cranz s meticulous close readings of the texts make the case that the reorientation was so deep and thorough as to problematise our modern readings of Hellenic thinkers such as Aristotle and so radical as to be almost invisible to the Medieval and post Medieval thinkers The definitions and distinctions of thematics in this collection are of intrinsic interest then to Classical and Late Antique Medieval Renaissance and Early Modern intellectual historians Indeed Cranz s work vindicates serious intellectual historical inquiry as indispensable to our understanding of the basic motives and accomplishments of the culture of Pre Modernity

Western Art, Western History Ron Tyler, 2019-03-07 For nearly half a century celebrated historian Ron Tyler has researched interpreted and exhibited western American art This splendid volume gleaned from Tyler s extensive career of connoisseurship brings together eight of the author s most notable essays reworked especially for this volume Beautifully illustrated with more than 150 images Western Art Western History tells the stories of key artists both famous and obscure whose provocative pictures document the people and places of the nineteenth century American West The artists depicted in these pages represent a variety of personalities and artistic styles According to Tyler each of them responded in unique ways to the compelling and exotic drama that unfolded in the West during the nineteenth century an age of exploration surveying pleasure travel and scientific discovery In eloquent and engaging prose Tyler unveils a fascinating cast of characters including the little known German Russian artist Louis Choris who served as a draftsman on the second Russian circumnavigation of the globe the exacting and precise Swiss artist Karl Bodmer who accompanied Prince Maximilian of Wied on his sojourn up the Missouri River and the young American Alfred Jacob Miller whose seemingly frivolous and romantic depictions of western mountain men and American Indians remained largely unknown until the mid twentieth century Other artists showcased in this volume are John James Audubon George Caleb Bingham Alfred E Mathews and finally Frederic Remington who famously sought to capture the last glimmers of the old frontier A common thread throughout Western Art Western History is the important role that technology especially the development of lithography played in the dissemination of images As the author emphasizes many works by western artists

are valuable not only as illustrations but as scientific documents imbued with cultural meaning By placing works of western art within these broader contexts Tyler enhances our understanding of their history and significance *Josephus in Modern Jewish Culture* Andrea Schatz, 2019-05-20 The contributions to this volume trace for the first time how the modern Jewish reception of Josephus the ancient historian who witnessed and described the destruction of the Second Temple took shape within different scholarly religious literary and political contexts across the Jewish world from Amsterdam to Berlin Vilna Breslau New York and Tel Aviv The chapters show how the vagaries of his tumultuous life spent between a small rebellious nation and the ruling circles of a vast empire between Jewish and non Jewish cultures and between political action and historical reflection have been re imagined by Jewish readers over the past three centuries in their attempts to make sense of their own times The project and this volume can encourage greater awareness of the complex origins of Josephus controversial reputation as a Jewish priest diplomat in Rome military leader of the first Jewish revolt against the Romans as an advocate for surrender to imperial forces as a witness to the Hurban as a citizen of Rome and as a historian Recommended highly for all Jewish and academic libraries David B Levy Touro College NYC in Association of Jewish Libraries News and Review 1 2 2019 *York Minster* Thomas W.
