

Animals and Plants in “What Darwin Never Knew” Film

Topic: Entertainment & Media | Words: 455 | Pages: 2

What Did You Learn?

I enjoyed watching the video *What Darwin Never Knew*, as it profoundly explains and accounts for the relationship between the various animal and plant species. It is well organized and explains the history of Charles Darwin chronologically, stating how he gained his interest in knowing the nature of different world species. It also provides details of Charles Darwin from his childhood to adulthood and how he influenced the world of evolution science. Diagrams, photographs, and short documentary films of various species are used in the video, making it more exciting and appealing. The film is thus reliable in studying the genetic composition of various classes and information about the source of the variants and similarities in animal and plant types.

From the movie, I understand that nature has a common origin for plant and animal species. I also appreciate how the animals distribute themselves globally and adapt to the climatic and natural surroundings. Moreover, different plant and animal species suitably acclimatize to their current environmental conditions. The genetic composition of the animals makes them suitable for their environment (Star Stuff). For instance, desert animals are well developed to prevent excessive loss of water from their bodies.

The film identifies similarities and differences in the composition of the distinctive features of animals and plants. From such detailed research, I agree that animals have similar origins because their bodies are identical components. The video helps me acknowledge the role of
