pastoral theologians such as Capps and Couture and from contemporary cultural criticism Mercer challenges approaches to educational and liturgical practices with children in congregations that segregate children from the rest of the church and its key practices of service mission worship care and learning She reframes ministries with children as processes through which the church as a community of practice forms children into an alternative identity that resists surrounding consumerist culture and walks in the ways of Jesus This book offers strategies for educational practices with children in congregations as it seeks to address the question What might educational practices that welcome children and contribute to their flourishing look like in the context of a faith community where children s learning happens in collaboration with experienced practitioners of faith Outlining a feminist practical theology of childhood it explores five basic theological claims 1 children as gifts and parenting as a religious practice of stewardship 2 welcoming those who welcome and care for children 3 children as already fully human 4 children as part of the purposes of God and 5 acknowledging and transforming the sufferings of children

an audience hungry for a romantic version of Appalachia According to Satterwhite best selling fiction has portrayed Appalachia as a distinctive place apart from the mainstream United States has offered cosmopolitan white readers a sense of identity and community and has engendered feelings of national and cultural pride Thanks in part to readers faith in authors as authentic representatives of the regions they write about Satterwhite argues regional fiction often plays a role in creating and affirming regional identity By mapping the geographic locations of fans Dear Appalachia demonstrates that mobile white readers in particular including regional elites have idealized Appalachia as rooted static and protected from commercial society in order to reassure themselves that there remains an authentic America untouched by global currents Investigating texts such as John Fox Jr s The Trail of the Lonesome Pine 1908 Harriette Arnow s The Dollmaker 1954 James Dickey s Deliverance 1970 and Charles Frazier s Cold Mountain 1997 Dear Appalachia moves beyond traditional studies of regional fiction to document the functions of these narratives in the lives of readers revealing not only what people have thought about Appalachia but why
