5 pages | 1123 words

* is a body of doctrine developed by the Catholic Church on matters of poverty and wealth, economics, social organization and the role of the state. Its foundations are widely considered to have been laid by Pope Leo XIII's 1891 encyclical letter *Rerum Novarum*, which advocated economic Distributism and condemned both Capitalism and Socialism, although its roots can be traced to the writings of Catholic thinkers such as St. Thomas Aquinas and St. Augustine of Hippo, and is also derived from concepts present in the Bible.

* The Catholic Social Teaching has two basic characteristics, namely, being permanent and developing.

* Permanent

-Since the teachings are based on the Gospel, they offer a permanent complex idea to be pursued in the ever changing historical conditions and ways. These teachings can never go out of date in their fundamentals. Examples of these permanent teachings are exemplified in the following principles:

1. Human dignity and Solidarity 2. Social justice and Christian love 3. Active non-violence and peace 4. Preferential option for the poor 5. Value of human work 6. Universal destinations of all goods of the earth 7. Stewardship and the integrity of creation 8. People empowerment 9. Authentic and holistic (integral) human development

* Developing

-The fundamentals of Church Social Teaching make up the steadily growing collection of the Church's social principles that must be creatively applied to and renewed in ever changing concrete situations of various events, cultures, and human needs in the historical process. Deeper insights into permanent values develop as the Church reads the signs of the times.

* Methods and Sources

1. Scripture. The authoritative books which record the Jewish and Christian experiences of God's self-disclosure. Scripture reveals who God is and who we are called to be in response to God. Interpretation of Scripture requires attention to historical context and is best done in community.

2. Tradition: the ways of thinking and living that are "handed over" (traditio) from one generation to the next; an ongoing conversation across the ages about our most important questions. Also the body of theological reflection and the ways of putting this reflection into practice that are "handed over" (traditio) from one generation to the next. Magisterium: official teaching office of church and authoritative voice of tradition. While theologians, activists, and ordinary Catholics make contribute to this body of theological reflection in important ways, a privileged source of Catholic tradition is the magisterium or the official, authoritative teaching office of the church. This official teaching office is exercised by Catholic Bishops, and in particular the Bishop of Rome (the Pope), as well as groups appointed by the Pope. This teaching is expressed in the form of a) papal encyclicals;

b) encyclicals of Church Councils (such as Vatican II) or Synods of Bishops, c) statements by Vatican offices, congregations, and commissions; & d) Episcopal conferences (regional meetings of Bishops, such as the National Conference of Catholic Bishops in the United States).

Carrying Water to the Field Joyce Sutphen, 2019-10-01 Joyce Sutphen's evocations of life on a small farm coming of age in the late 1960s and traveling and searching for balance in a very modern world are both deeply personal and familiar. Readers from Maine to Minnesota and beyond will recognize themselves, their parents, aunts and uncles, and neighbors in these poems which move us from delight in keen description toward something like wisdom or solace in the things of this world. In addition to poems selected from the last twenty-five years, *Carrying Water to the Field* includes more than forty new poems on the themes of luck, hard work, and the ravages of time, erasures that Sutphen attempts to ameliorate with her careful attention to language and lyrical precision.

Everyone Has an Everest Sandy Andrews, 2003 *Everyone Has An Everest* is a story of inspiration. If you are looking to be revitalized and renewed, you must read this book. In it, the author tells of her 12-year battle with Parkinson's disease. She explains how the disease took her health, her job, her car, her life's savings, and her insurance. Ms. Andrews is also an educator with 31 years of experience. The book graphically describes her experiences as an inner-city elementary school principal and how she changed a school who had five principals in five years. How she dealt with the debilitating disease and never missed a day of school. It will be useful to Parkinson patients and care givers because it gives specific information on how to obtain social security disability status, how to obtain food stamps, how to get Medicaid, how to deal with depression, Parkinson's Advocates, and lobbying legislators. And most importantly, it describes the operation that gave her a second chance at life.

Education, Work and Catholic Life Anne Keary, 2019-07-12 This book reports on innovative interdisciplinary research in the field of cultural studies. The study spans the early twentieth to twenty-first centuries and fills a gap in our understanding of how girls and women's religious identity is shaped by maternal and institutional relations. The unique research focuses on the stories of thirteen groups of Australian mothers and daughters, including the maternal genealogy of the editor of the book. Extended conversations conducted twenty years apart provide a situated approach to locating the everyday practices of women, while the oral storytelling presents a rich portrayal of how these girls and women view themselves and their relationship as mothers and daughters. The book introduces the key themes of education, work, and life transitions as they intersect with generational change and continuity, gender, and religion, and the non-linear transitional stories are told across the life course, examining how Catholic pasts shaped and continue to shape the participants' lives. Adopting a multi-methodological approach to research, drawing on photographs, memorabilia, passed among mothers and daughters, journal entries, and letters, it describes how women's lives are lived in different spaces and negotiated through diverse material and symbolic dimensions.

Dill,2013-07-18 As the world seemingly gets smaller and smaller schools around the globe are focusing their attention on expanding the consciousness and competencies of their students to prepare them for the conditions of globalization Global citizenship education is rapidly growing in popularity because it captures the longings of so many to help make a world of prosperity universal benevolence and human rights in the midst of globalization s varied processes of change This book offers an empirical account from the perspective of teachers and classrooms based on a qualitative study of ten secondary schools in the United States and Asia that explicitly focus on making global citizens Global citizenship in these schools has two main elements both global competencies economic skills and global consciousness ethical orientations that proponents hope will bring global prosperity and peace However many of the moral assumptions of global citizenship education are more complex and contradict these goals and are just as likely to have the unintended consequence of reinforcing a more particular Western individualism While not arguing against global citizenship education per se the book argues that in its current forms it has significant limits that proponents have not yet acknowledged which may very well undermine it in the long run [The Complete Guide to Writing Effective College Applications & Essays for Admission and Scholarships](#) Kathy Lynn Hahn,Colleen M. A History of Catholic Education and Schooling in Scotland Stephen J. McKinney, Raymond McCluskey, 2019-05-23. This book analyses the development of Catholic schooling in Scotland over the course of the nineteenth and twentieth centuries. Scholarship of this period tends to be dominated by discussions of the 1872 and 1918 Education Scotland Acts while these crucial acts are certainly not neglected in this volume. The editors and contributors also examine the key figures and events that shaped Catholic education and Catholic schools in Scotland. Focusing on such diverse themes as lay female teachers and non-formal learning, this volume illuminates many under-researched and neglected aspects of Catholic schooling in Scotland. This wide-ranging edited collection will illuminate fresh historical insights that do not focus exclusively on Catholic schooling but are also relevant to the wider Scottish educational community. It will appeal to students and scholars of Catholic schooling in Scotland as well as Christian schooling more generally.
