Mollona, 2018-06-11 The past decades have seen significant urban insurrections worldwide and this volume analyzes some of them from an anthropological perspective it argues that transformations of urban class relationships must be approached in a way that is both globally informed and deeply embedded in local and popular histories and contends that every case of urban mobilization should be understood against its precise context in the global capitalist transformation The book examines cases of mobilization across the globe and employs a Marxian class framework open to the diverse and multi-scalar dynamics of urban politics especially struggles for spatial justice

Le business franco-nigérian à l'heure de l'Afrique émergente Marjolaine Paris, 2013. À partir d'une enquête de terrain auprès d'entreprises ce livre s'intéresse dans une optique de sociologie économique aux dynamiques de l'échange commercial franco-nigérian. Il appréhende le cadre des relations d'affaires entre la France et le Nigeria plus particulièrement leurs liens historiques et politiques et décrit l'environnement des affaires chez ce géant de l'Afrique marqué par une forte incertitude liée à la sécurité et la corruption. L'auteure montre comment les acteurs tirent parti de ce contexte défavorable pour mener bien des affaires les moins risquées possibles gagnant d'importants bénéfices financiers et s'inscrivant dans la durée. Vritables piliers de l'échange commercial les lites économiques internationales françaises et nigérianes s'organisent en configurations originales propres à le faciliter. Flexibles peu institutionnalisées et marquées par des situations d'intermédiation ces configurations reposent sur des contrats commerciaux et des conventions. Les intérêts financiers tant la base de la rencontre des acteurs l'argent et sa circulation sont des mécanismes centraux. Ces intérêts financiers coagissent avec d'autres mécanismes sociaux notamment des dispositifs de classification et de hiérarchisation liés aux nationalités et aux origines. Croisés avec les statuts socioprofessionnels ces dispositifs peuvent engendrer des clivages et des conflits au cœur de la coopération économique. Étude fine des relations de travail entre cadres internationaux et nationaux au sein des firmes françaises et nigérianes cet ouvrage s'inscrit ainsi dans les grands courants actuels de la sociologie et de l'anthropologie économique. Son principal apport et son originalité résident dans sa compréhension différentes échelles des relations de pouvoir et de domination qui régissent les relations commerciales entre les deux pays.
